

## Interested in contributing to health research?

Dr. Roseann Larstone (Principal Investigator) and investigators from the Northern Medical Program, UNBC, BC Cancer – Centre for the North, patient partners, and a local non-profit organization have partnered to conduct a research study. The study will engage and collaborate with patients, informal caregivers, and health care providers to learn about patient priorities and experiences of cancer care for individuals who experience mental illness and cancer.

If you are an individual over the age of 19 who is living with chronic mental health issues, currently experiencing stable mental health and ever been diagnosed with cancer, or if you are an individual over the age of 19 who provides informal care and support to an individual who meets the above criteria, you may be eligible to participate.
